

Matrix™

In stadiums around the world, the winner is always Matrix.

Matrix features generous seat proportions and classic styling to offer a level of comfort that is unmatched in stadium seating. Our design team has created an ergonomic seat that flexes and moves with spectators through all the emotions of the big game.

Matrix is safe and reliable, and is fitted with Camatic Seating's gravity tilt mechanism to ensure it is not only silent but simple to maintain.

From the Melbourne Cricket Ground to Portugal's Benfica Stadium, Camatic Seating ensures the maximum number of patrons can be accommodated comfortably in any venue.

All Camatic Seating products are designed, developed and built in-house by a team of professionals who are renowned for quality, leading edge technology and seamless installations around the world.

Engineered to be quick and easy to install, Matrix is effortlessly configured to any site's specific requirements. A significant Matrix design feature is the intelligent pivot system and tight envelope that provides maximum egress along rows and enhances the overall look of any stadium.

Universal options

The following options are available on all Matrix chairs:

- Armrests – single (shared) or double
- Cup holders
- Seat numbers
- End of row identification

Mounting system

- Tread or riser mount
- Single units installation

Seat configuration

Seats are installed at uniform centres and held to the floor or riser by three fixings.

Gravity tilt seats

The innovative gravity tilt seats, using fully enclosed counterweights, are silent, dependable and reliable. A ¾ pushback mechanism ensures easy access for patrons.

Removable system – single and two seat units	•	•	•

Matrix™

Matrix Plaza

Matrix Plaza is an ergonomically designed bucket style seating solution that provides exceptional patron comfort and offers easy egress along rows while maintaining maximum seating numbers.

The robust, heavily ribbed shell can be mounted at various seat centres from 450mm [17 1/2"] on a beam system fixed to treads, risers or on top of risers. Seat and row identification is available for easy audience management.

Matrix Bare

Matrix Bare provides patrons with exceptional comfort and safety. Seating along rows can be evenly centred to maximize the personal space of spectators, while a unique gravity seat pivot system increases access to seating locations.

Matrix Upholstered with arms

The Matrix Upholstered range takes stadium seating comfort to a new level. The seat, or seat and back-pad version, each offers more sophisticated appointments while remaining true to typical stadium designs.
